

MONO

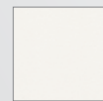

SYSTEM

The universal cutlery tray insert with its closed edges on both sides is a convenient solution for keeping conventional ranges of flatware tidy and organised in wider drawers, and, at the same time, to create sufficient space for utensils of all kinds. The insert fits drawer widths from 300 mm. Solid-wood holders for knives and spice pots are useful and elegant additions. This system is completed by our tried-and-tested anti-slip mats available in a variety of embossed finishes and colours.

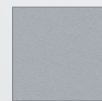

MATERIAL

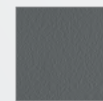

High-impact-proof PS plastic in white, aluminium metallic, slate grey, black-brown are all available from stock. Customised dimensions and colours are possible upon request.
